- Start of Sale

First half of 2025

- Start of construction

End of 2028

- Opening

Signature Design Elements

The Crown

Kinetic Move

The X-Frame

Passion Spaces

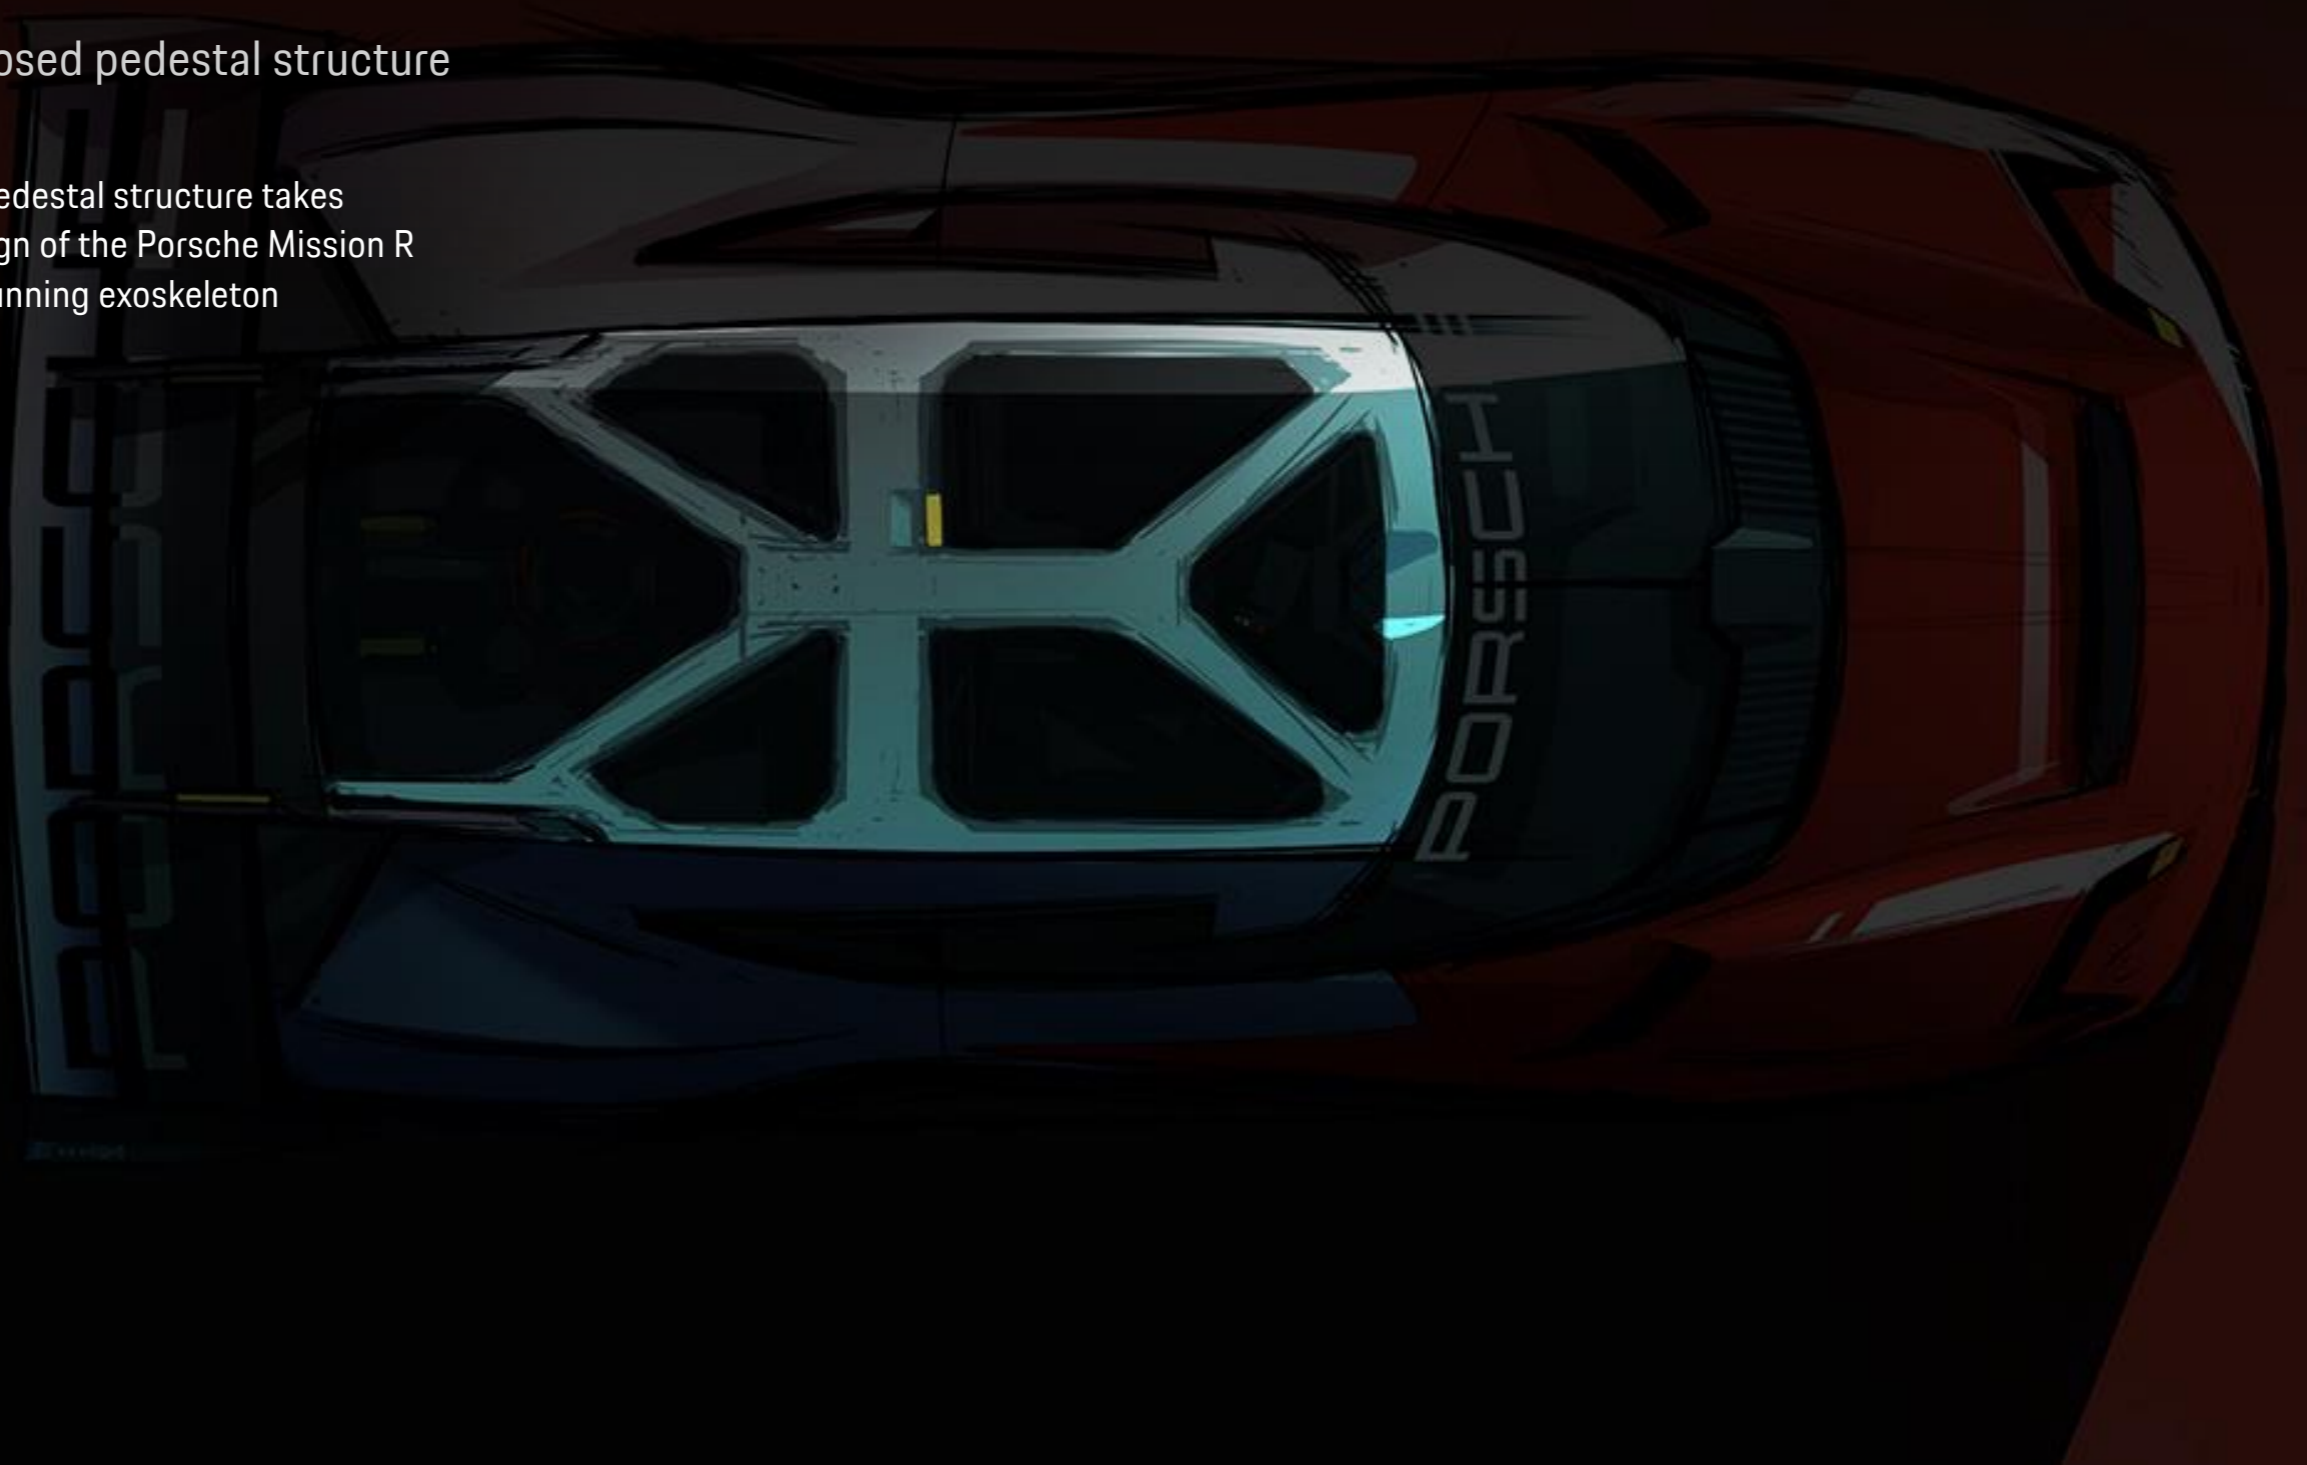

The Loop

The X-Frame

The iconic exposed pedestal structure

The shape of the pedestal structure takes cues from the design of the Porsche Mission R concept and its stunning exoskeleton structure.

The X-Frame

The iconic exposed pedestal structure

To create the optimal open entry experience, a pedestal structure is needed for the podium levels. Instead of hiding the pedestal, it is exposed in the Porsche Design Tower Bangkok to highlight our engineered approach.

PORSCHE DESIGN
TOWER BANGKOK

The Loop - Central Spiral Access Ramp

The centrepiece of the building dedicated to the residents' vehicles

Featuring a unique driving ramp at the very centre of the building that directly leads to the Passion Spaces.

PORSCHE DESIGN
TOWER BANGKOK

Passion Spaces

The ultimate luxury garage for the residents' treasured vehicles and possessions

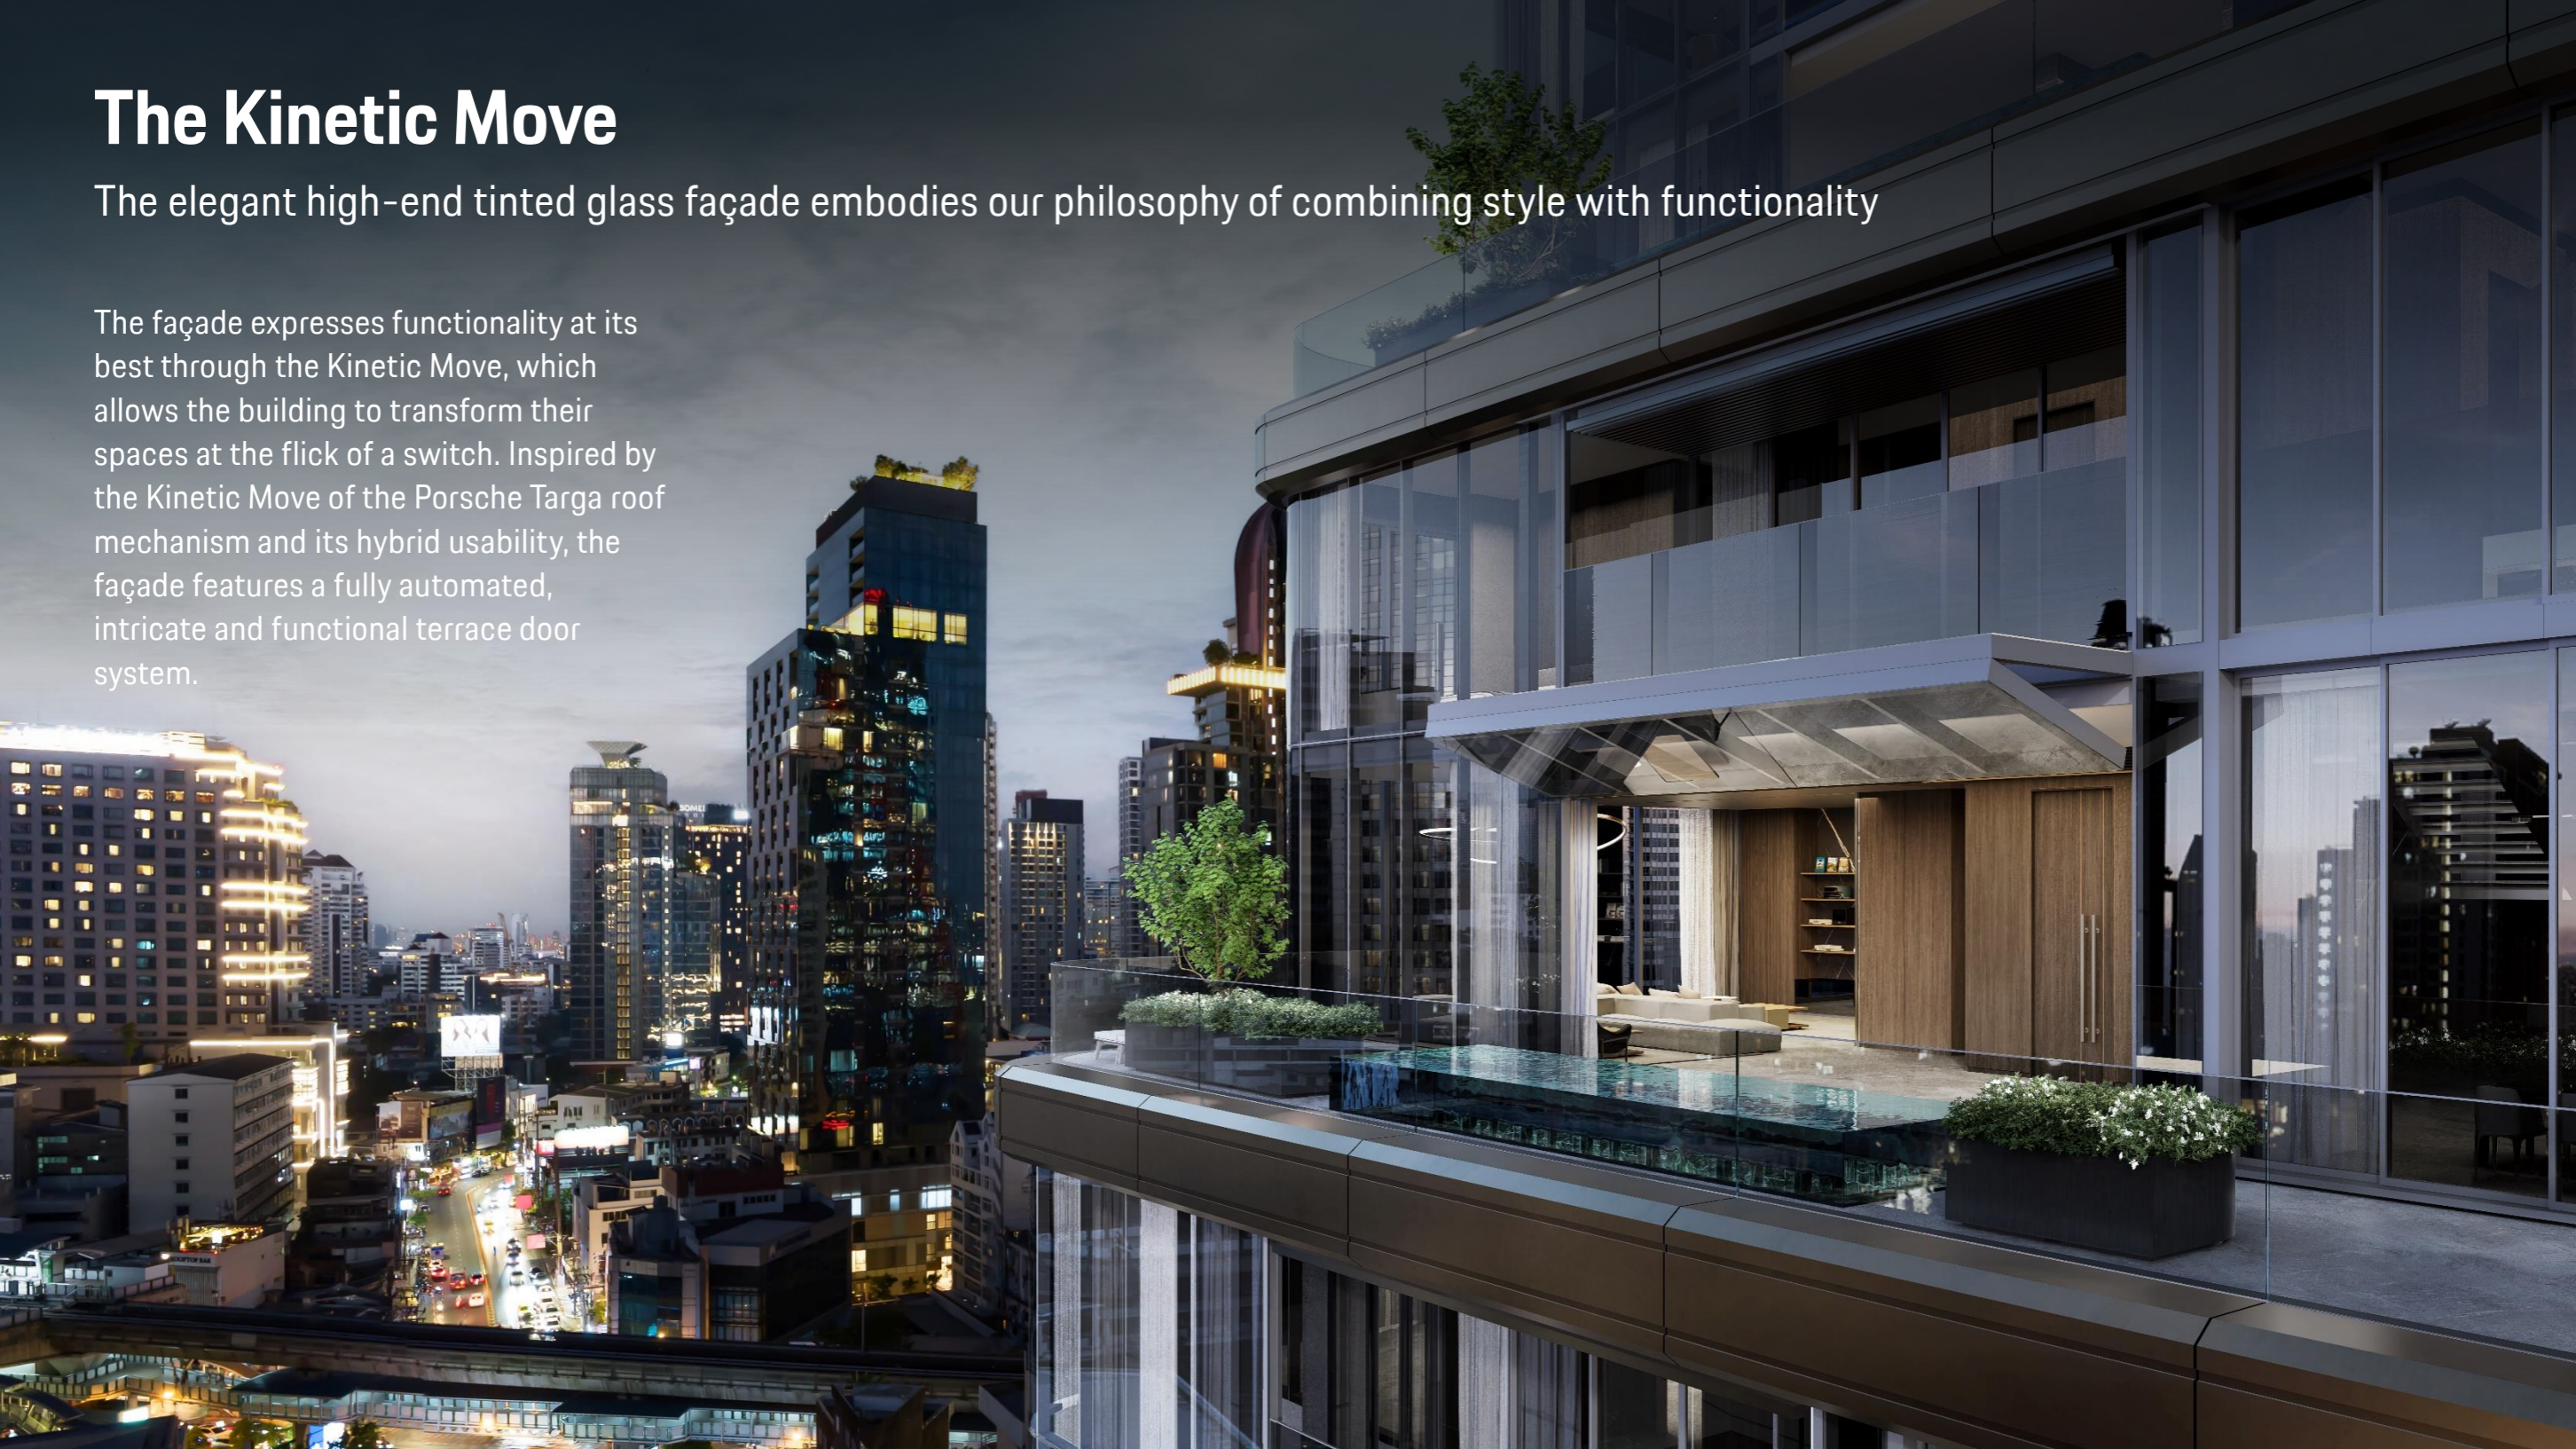

A perfect place to come together, showcase one's values and to express the owner's passions even beyond the automotive aspect. This space serves as a meeting point for like-minded spirits, that can be completely tailored to the individual liking.

The Kinetic Move

The elegant high-end tinted glass façade embodies our philosophy of combining style with functionality

The façade expresses functionality at its best through the Kinetic Move, which allows the building to transform their spaces at the flick of a switch. Inspired by the Kinetic Move of the Porsche Targa roof mechanism and its hybrid usability, the façade features a fully automated, intricate and functional terrace door system.

The Crown

Creating an iconic landmark in the Bangkok skyline

The design of the crown is inspired by the intricate lighting designs throughout Porsche's heritage.

The Crown

Creating an iconic landmark in the Bangkok skyline

The iconic light signature embellishes the top of the Porsche Design Tower Bangkok, creating a landmark in the Bangkok skyline.
