Berlin, 30. April 2025 - For decades, Studio F. A. Porsche has been shaping the world of design, creating products that seamlessly blend aesthetics, functionality, and innovation. As a design studio with a rich history, working both on in-house projects and in collaboration with leading global brands, it has consistently pushed the boundaries of what is possible. This commitment to exceptional design has resulted in numerous prestigious accolades over the years. At the iF Design Awards 2025, the studio continues this tradition, securing five prestigious awards, including two Gold Awards. These latest honors mark an exciting milestone, as Studio F. A. Porsche proudly celebrates its 100th iF award—an achievement made possible through strong and collaborative partnerships and a shared dedication to outstanding design.

The award-winning projects showcase the studio's commitment to innovation and excellence in aesthetics and functionality. The honored designs include:

Panasonic ALPHA Set | Washing Machine & Dryer (Gold Award)

A revolution in household appliances, the Panasonic Alpha Washing Machine and Dryer set redefines home laundry with its state-of-the-art technology and sleek, modern design. A simplified stainless-steel body is combined with an enhanced user experience through intelligent automation and an intuitive

interface. Rethinking the interaction the design challenges the regular button layout design by incorporating an LCD magnetic control panel that can work across devices.

optimal user accessibility. The refined craftsmanship and architectural presence of the battery elevate it beyond a purely functional device, making it striking visual element in contemporary home environments.

Porsche Design Chronograph 1 Utility – Limited Edition

A timepiece that embodies the spirit of precision engineering and timeless aesthetics. The design of the Chronograph 1 Utility draws from Porsche Design's iconic Military Chronograph of the 1970s, which was known for its reliability, durability, wearing comfort and readability and had achieved legendary status among international air and naval forces. The re-issue is equipped with state-of-the-art technologies and the in-

The hinge allows the door to be opened not only by the previous 180 degrees, but up to a full 360 degrees.

Dial UI – A user interface that redefines the interaction between humans and household appliances. Together with MHP, one of the leading consulting companies and a Porsche subsidiary, the studio designed the Panasonic Alpha Series washing machine interface with a strong focus on clarity and ease of use, ensuring an intuitive and seamless experience. Featuring a simplified UI and an intuitive interface,

"These awards are the result of strong collaboration—between our talented and visionary team and our innovative, industry-leading clients," says Carsten Monnerjan, Managing Director of Studio F. A. Porsche. "We believe that outstanding design is born from partnerships that challenge the status quo and push boundaries. These awards reaffirm our mission to create products that are not only aesthetically appealing but also deliver tangible value in everyday life through innovation and functionality."
