LOOKBOOK FASHION FALL/WINTER 2020

F//20

W20

Porsche Design has once again been inspired by the lifestyle of digital nomads for the Fall/Winter 2020 fashion collection. These trendsetting, high achievers rise to new challenges instead of following old conventions. They do not rely on set routines, they are always active and they move with the times without losing sight of what's important. Featuring exclusive materials, innovative technologies, and functional elements, the new collection is perfect for an ambitious and active lifestyle.

Smart outfits in urban grey and blue tones are for those who are not satisfied with the average, but those that hold themselves to the highest standard. The collection's striking and refreshing details were inspired by space travel. Styles such as the progressive Neoprene Leather Mix Jacket, Printed Mars Tee, and futuristic MotoX Leather Biker are a tribute to the pioneering spirit of the 2025 Mars Rover mission – and a testament to the wearer's own drive to always push boundaries. The logo style has also been

reinterpreted for the Fall/Winter collection, combining traditional designs with modern elements. For example, the voluminous Porsche Design Icon Leather Bomber features logo embroidery in Chesterfield style, creating a stunning fusion with the exceptional matte leather. Exclusive pullovers, casual sweaters, trousers and blazers boast tailored cuts and details clearly inspired by sports cars including stitching in the same style as Porsche steering wheels and elements made of Porsche seat belt material.

A future-oriented mindset is also reflected in the chosen materials. Recycled ECO nylon, down-free padding and chrome-free leather represent another step in a sustainable direction. The collection is complemented with basics made of high-quality materials, as well as footwear, accessories, and leather goods designed to match the look.

The Fall/Winter 2020 collection will be available worldwide in Porsche Design stores and online at www.porsche-design.com in August.
