

PRESS RELEASE

For immediate release

Dynamiq GTT 115 Hybrid launched.

Viareggio, 19. September 2017. Dynamiq is delighted to announce the launch of the GTT 115, the avant-garde superyacht designed in conjunction with cult Studio F. A. Porsche. The GTT 115 is the latest embodiment of the Dynamiq philosophy to design and build next-generation yachts for discerning owners with a matching mindset:

“The launch is the culmination of a long process of design and development to introduce a new kind of superyacht to the market,” says Sergei Dobroserdov, CEO of Dynamiq. “The modern gentlemen’s superyacht, the GTT 115 draws on the latest technology to combine comfortable high-speed cruising over 21 knots with efficient fuel consumption and long range of more than 3,400 nautical miles. GTT 115 is undoubtedly the most advanced superyacht at the Monaco Yacht Show with her round-bilge hull form, podded propulsion, Hull Vane and exclusively developed stabilization system with 4 fins and interceptors. Her bespoke hybrid system with 3 variable-speed generators are tributes to our strong belief

in the sustainable future of yachting. At just 35 meters overall, the yacht offers the versatile spaces and feeling of a much larger vessel. On top of all this, GTT 115 is finished to the highest quality and looks super cool in her fashionable Rhodium Grey metallic paint. We decided to limit production to 7 units to make the GTT 115 a true collector's item.", continues Dobroserdov.

"Taking the spirit of high-performance sportscar styling to the high seas, the Dynamiq GTT 115 is designed to appeal to car lovers and forward-thinking yacht owners who appreciate the advantages of speed, style and our philosophy of intelligent performance," says Roland Heiler, CEO of Studio F. A. Porsche.

The GTT 115 will make her international debut at the coming Monaco Yacht Show and will be moored at berth H01 directly in front of the prestigious Monaco Yacht Club, where Dynamiq has its exclusive showroom. Dynamiq's first launch, 39m *Jetsetter*, will also be anchored in the Bay of Monaco and a tender will be available to shuttle VIP guests between the two superyachts. The GTT 115 Hybrid is listed for sale at €13.950.000 Euros, while *Jetsetter's* asking price is €14.545.500.

Notes to editors:

About DYNAMIQ

Dynamiq was started in Monaco in 2011 by experienced yacht broker Sergei Dobroserdov, who assembled a 'dream team' of world thinkers, yacht designers and naval architects to turn the GTT concept into reality. "I simply believe we can propose something better that offers owners more choice: versatile yachts perfect for any occasion, whether it's relaxing family cruising or vibrant deck parties. Fast but with ocean-going range, easy to order and customise with top world brands," says founder and CEO Sergei Dobroserdov.

Dynamiq is the first company in the superyacht industry to introduce an online configurator, allowing the yacht to be easily and transparently customised down to the last detail. Dynamiq unveiled its first launch, 39m *Jetsetter*, at the 2016 Monaco Yacht Show to

wide acclaim. The next project, the GTT 115, is currently in build in Viareggio, Italy. Developed in conjunction with the renowned design firm Studio F.A. Porsche, the 35m yacht is due to launch in autumn 2017.
